Congratulatory Message from C. C., of W.P.K. to 2nd National Meet of Frontrankers in Chullima Work Team Movement

PYONGYANG, May 10 (KCNA)—Comrade Kim Il, Member of the Political Committee and its Presidium, and Secretary, of the Central Committee of the Workers' Party of Korea, conveyed a congratulatory message from the Central Committee of the Workers' Party of Korea to the 2nd National Meeting of Frontrankers in the Chullima Work Team Movement that opened at the Pyongyang Grand Theatre on May 9.

In the message, the Central Committee of the Workers' Party of Korea extended warm congratulations to the 2nd National Meeting of Frontrankers in the Chullima Work Team Movement, a meeting of victors who had performed brilliant exploits in the socialist construction of our country, and through the meeting to the entire Chullima riders and the heroic working class of our country.

It said:

The Chullima Movement is a great communist revolutionary movement and the general line of our Party in socialist construction, which was created on the great initiative of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, and under his wise leadership.

As Comrade Kim Il Sung taught us, **"The essence of this line is to unite the entire working people more closely around our Party by educating and remoulding them in communist ideology and bring their revolutionary zeal and creative talent into full play, so that socialism can be built faster and better."**

The Chullima Movement was further deepened and developed into the Chullima Work Team Movement after the completion of the socialist transformation of production relations and in the course of the struggle against the survivals of outdated ideas such as passivism, conservatism and mysticism, especially, in the course of the intensification of the education in the Party policies and revolutionary traditions and communist education among the masses and the conversion of the Party work into a living, creative work with people.

The Chullima Work Team Movement is a reflex of the unanimous will and burning patriotism of our working people for building faster a happy socialist paradise in this land under the wise guidance of the Leader, manifestation of the inexhaustible creative power of our working people who are educated by the Party and the Leader and are advancing, rallied close around the Party and the Leader with one mind and one will, and a brilliant embodiment of the mass line of our Party on pushing on the revolution and construction to the maximum, always placing confidence in the masses and relying on them.

Pointing out that today in our country, through the Chullima Work Team Movement involving all the spheres of economy and culture, ideology and morality, all the wisdom and enthusiasm of our working people and their creative power are brought into full play, everything backward and stagnant is being smashed and new communist ideology and morality are triumphing in an all-round way, socialist construction is being accelerated at unusual speed and the ideological revolution is making headway successfully, the message continued:

The Chullima riders are solidly building up the Chullima Work Teams as a militant bastion of our revolution in which the system of the unitary ideology of the Party is firmly established, by thoroughly arming themselves with the revolutionary ideas of Comrade Kim Il Sung through everyday study of the Party policies and revolutionary traditions, defending the Party and the Leader with their own lives and waging an uncompromising struggle against counter-revolutionary ideological elements of all descriptions contradictory to the ideas of the Party.

After dwelling on the great contribution made by the Chullima riders in the struggle for pushing through the original line of economic construction of our Party on giving priority to the growth of heavy industry while developing light industry and agriculture, which was put forward by Comrade Kim Il Sung, the great Leader, in the difficult postwar period, in the struggle for carrying through the grand programme of the 7-Year Plan spread by Comrade Kim Il Sung, the great Leader, at the historic 4th Congress of our Party and in the struggle for pushing through the revolutionary line of our Party on carrying on economic construction and defence upbuilding in parallel which was advanced by the respected and beloved Leader at the historic Conference of the Party, the message said:

Under the wise leadership of Comrade Kim Il Sung, the outstanding Leader of our revolution, our country has been converted today into a powerful socialist state independent in politics, self-sustenant in economy and self-defensive in national defence.

All the victories and achievements registered in the past period are associated with the heroic struggle and great labour exploits of you Chullima riders, the heroes of our times and red fighters of the Party, who are single-heartedly and boundlessly faithful to the Leader.

Today our people, the message pointed out, are confronted by the weighty revolutionary task for accomplishing the revolutionary cause of the unification of the fatherland by accelerating at maximum the socialist construction in the northern half of the Republic and, at the same time, completing the South Korean revolution by assisting the struggle of the South Korean people against the U.S. imperialist aggressors and the traitorous Pak Jung Hi clique, their stooges.

Today a strained situation has been created in our country in which a war may break out again at any moment owing to the intensified manoeuvres of the U.S. imperialist aggressors, the chieftain of world reaction, for the provocation of a new war.

As comrade Kim Il Sung, the respected and beloved Leader, taught us, **"The present situation demands that we conduct all our work in a more active, more revolutionary manner and subordinate everything to the struggle to accomplish the South Korean revolution by giving support to the South Korean people in their struggle and unify the fatherland."**

The 17th Plenum of the 4th Central Committee of the Party held recently set forth the militant tasks for building up more solidly our revolutionary ranks, politically and ideologically, and scaling the height of the 7-Year Plan by lifting industrial output to more than 124 per cent while further increasing the defence potential in face of the prevailing situation.

Upholding the resolutions of the historic Conference of the Party, the great 10-point Political Programme announced by Comrade Kim Il Sung and resolutions of the 17th Plenum of the 4th Central Committee of the Party, the entire Chullima riders and working people should raise high the flames of the great revolutionary upsurge on all fronts and at all posts of socialist construction and carry out with success the vast people's economic plan for this year and thereby actively contribute to making a decisive advance in the fulfilment of the 7-Year Plan and bringing earlier the nation-wide victory of our revolution.

For this, you must make continuous innovation and uninterrupted advance, holding fast to the Chullima Movement, the general line of our Party in socialist construction.

The entire Chullima riders and working people should expand on a large scale the ranks of Chullima Work Teams, Chullima Work Shops and Chullima Factories and consolidate them qualitatively and take a new stride in all spheres of production, technique, culture, ideology and morality by further deepening and developing the Chullima Work Team Movement in conformity with the requirements of the development of realities.

Noting that the Chullima riders should educate and remould all people in a communist way by energetically carrying on the ideological revolution of revolutionization and working-classization ahead of all other work with the Chullima Work Teams as the stronghold, the message continued:

What is most important in educating and remoulding man in a communist way and revolutionizing and working-classizing him is to firmly establish the system of the unitary ideology of the Party.

The entire Chullima riders and working class should firmly arm themselves with the unitary ideology of our Party, the great revolutionary ideas of Comrade Kim Il Sung run through with the principles of *Juche* in ideology, independence in politics, self-sustenance in economy and self-defence in national defence and become lifeguards and death-defying corps which breathe and act together with the Leader, defend and protect the Leader with their lives in any adversity and remain boundlessy faithful to the Leader with single devotion.

The Chullima riders and working class should make the revolutionary ideas of the Leader and the lines and policies of our Party, in which they are embodied, their flesh and blood, and defend and push through the orders and instructions of the Leader unconditionally at any time and in any place.

You should also wage a resolute struggle against counter-revolutionary ideas of all descriptions such as revisionism, "Left" opportunism, flunkeyism, bourgeois ideologies and feudal Confucian ideas and repudiate factionalism, parochialism and nepotism, which are contradictory to the unitary ideology of our Party, and defend the unity and solidarity of our revolutionary ranks as the apple of the eye.

The entire Chullima riders and working class should make a deep-going study of the glorious revolutionary traditions of our Party that took shape amidst the flames of the anti-Japanese armed struggle organized and guided in person by Comrade Kim Il Sung, the ever-victorious, iron-willed genius commander, so that they can deeply grasp the history of the revolutionary struggle of the Leader, his great revolutionary ideas and the judiciousness of his leadership and his lofty virtues and remain infinitely faithful to the Leader like the anti-Japanese guerrillas.

The Chullima Work Teams should strengthen education in the Party policies and revolutionary traditions, and communist education and education in socialist patriotism with class education as their main content.

The working class should fulfil with credit its duty as the leading class, exerting constant revolutionary influence upon the peasantry and intellectuals by taking the lead in revolutionization and working-classization and becoming the paragon in them through the further enhancement of its ideological, organizational and cultural standards.

To raise higher the flames of the great revolutionary upsurge to increase production and economize to the maximum, do more work and march ahead faster—this is the very demand of our Party and revolution and the urgent demand of the development of the present situation, the congratulatory message wrote, and stressed:

We should only advance, advance, struggle and advance.

The Chullima riders and the entire working people should energetically wage a grandiose labour struggle for fulfilling this year's plan for the people's economy before the 20th anniversary of the founding of the Republic by further spurring on the galloping Chullima and effecting a new revolutionary upsurge on all fronts of socialist construction.

As Comrade Kim Il Sung taught, as the level of consciousness and voluntary zeal of the working people are enhanced with the promotion of the ideological revolution and the economic foundations of the country are strengthened with the carrying out of the technical revolution, reserves for the growth of production increase all the more and, accordingly, it is the law of socialist economy to advance uninterruptedly and develop uninterruptedly at a high tempo.

The Chullima riders and working people should raise higher the speed of our advance, shattering the corrupt revisionist and flunkeyist view that if the scale of economy expands and industry reaches a certain stage of development, the speed of advance cannot be heightened and create new records and new norms everywhere, smashing conservatism, passivism and mysticism which cling to old "nominal capacity" and "norms."

The Chullima riders and working class should produce and build more, better and faster with less cost by making the most of the already laid economic foundations,

Letter of Pledge to Marshal KIM IL SUNG, Great Leader of 40 Million Korean People

The hearts of us Chullima riders attending the 2nd National Meeting of Frontrankers in the Chullima Work Team Movement are infinitely swelling with glory and emotion over receiving the programmatic instructions from Comrade Kim Il Sung at the meeting that our working class and Chullima riders should discharge their historic duty with credit and play to the full the role of vanguard in the grand Chullima march as become the leading class of the country and receiving a congratulatory message from the Central Committee of the Workers' Party of Korea to the meeting, and are burning with the determination to remain boundlessly faithful with single heart to the Leader, the letter noted.

Saying that under the guidance of the great Leader an advanced socialist system with a solid independent national economy, a powerful self-defence capacity, a socialist national culture in which *Juche* was established has been built in our country with the result that all people are happily living together, the letter went on:

The epochal changes and shining successes which will shine forever in the annals of the fatherland are the brilliant fruition of the wise leadership, the great ideas of *Juche* and the revolutionary line of independence, self-sustenance and self-defence of Comrade Kim Il Sung, who, taking upon himself the destiny of the fatherland and nation has led the Korean revolution to victory, pulling through in person a rugged, thorny path for over 40 years.

Today Comrade Kim Il Sung, enjoys the high respect and undivided trust of the revolutionary peoples of the whole world as an outstanding Marxist-Leninist of our times who is making a big contribution to the world revolution for his wise leadership to the revolution and socialist construction in our country, his ever-lasting ideas of *Juche*, resolute anti-imperialist, anti-U.S. stand, his great contribution to developing and enriching Marxism-Leninism to suit our times, and for his outstanding contribution to the development of the international communist movement and working-class movement.

This is the glory of Korea and the 40 million Korean people.

The letter noted that in the dark days of the Japanese colonial rule, Comrade Kim Il Sung, peerless patriot and national hero, illumined the road of the Korean revolution led by the working class and threw the bright light of fatherland's liberation over this land.

The letter said that Comrade Kim Il Sung, the respected and beloved Leader, reared workers into vanguards of revolution and masters of the country, and ensured our working class the leading position in revolution and enabled it to become the backbone in all domains of state activities after the Liberation.

Comrade Kim Il Sung, the genius military strategist and ever-victorious, iron-willed genius commander, led our working class and people to victory also in the period of the great Patriotic War of Liberation for repulsing the armed invasion of the U.S. imperialist aggressors and, in the postwar period, put forth a new economic line which no one has ever practiced, the line on giving priority to heavy industry and pushing ahead, along with it, light industry and agriculture and the Chullima Movement—the general line of socialist construction—racing against the time, and energetically led our working class to advance in the van of revolution and construction, the letter of pledge noted and continued:

Comrade Kim Il Sung, initiator and inspirer of the Chullima Movement, arranged in person the National Meeting of Frontrankers in the Chullima Work Team Movement and vouchsafed at this meeting the high title that "The Chullima riders are heroes of our times and red soldiers of the Party," and gave programmatic teachings on the essence of the Chullima Work Team Movement and the direction of its development.

Upholding the historic teachings, we Chullima riders and working people waged the Chullima Work Team Movement in an all-round way, expanding it not only to industry but also to all fields of agriculture, commerce, education, public health and culture, and the honourable ranks awarded the Title of Chullima Work Teams rapidly swelled, and Chullima Work Teams developed into Twice Chullima Work Teams and Chullima Shops and Chullima Factories emerged in our ranks.

As the great Leader taught, "**The Chullima Work Teams attach primary significance to the communist education of the working people and find the decisive link of collective innovation in production in rousing voluntary enthusiasm of man by educating and remoulding him.**"

With the Chullima Work Team Movement becoming a fine school of communist education, guided by the teachings of the Leader, this movement has grown into a great force in establishing more thoroughly the system of the unitary ideology of our Party among the working people and accelerating the course of the revolutionization and working-classization of the whole society.

We Chullima riders, learning from the revolutionary spirit of the anti-Japanese guerrillas who defended the Leader death-defyingly and carried the orders and instructions of the Leader through to the end, have grown up into revolutionary soldiers boundlessly faithful to the Leader like them and glorious frontrankers in the execution of our Party's general line in socialist construction.

The great Chungsan-*ri* spirit and Chungsan-*ri* method of Comrade Kim Il Sung placed work with persons at the first process in all work in the Chullima Work Team Movement and made the work of remoulding man work of the masses themselves.

The fine traits—setting an example voluntarily and setting a practical example to others, communist meritorious deeds and mutual help and influence and education with positive examples of positive begetting positive and example begetting example —are prevailing the whole society.

Stressing that under the correct leadership of the great Leader, the Chullima Work Team Movement has become not only a fine school of communist education for remoulding people but also a powerful propelling force rapidly developing the people's economy and a fine method for the mass economic management of the working people, the letter pointed out that last year we working class wrought miracles in all parts and created a startling speed—boosting the gross industrial output value as high as 17 per cent as against the previous year—by raising the flames of the great revolutionary upsurge for implementing the new revolutionary line on carrying on economic construction and defence upbuilding in parallel set forth by Comrade Kim Il Sung at the historic Conference of the Party.

The letter continued:

Nineteen sixtyseven was a year in which a still more fresh, great upsurge was effected in our country and a historic year in which Chullima flew high into the sky, its wings spreading wide.

Through the Chullima Movement our working people have been rallied more closely around the Party and the Leader and our country has been turned into a great socialist power with a solid independent national economy, a mighty bastion of the Korean revolution, is standing imposingly, guarding the eastern outpost of socialism and has become a reliable advance stronghold of the world revolution.

The triumphant advance of the Chullima Movement!

This is a demonstration of the great vitality of the immortal ideas of *Juche* and the revolutionary line of independence, self-sustenance and self-defence of Comrade Kim Il Sung and a brilliant victory of the mass line of our Party.

The great Chullima Movement which demonstrated the revolutionary stamina of the Korean working class is focusing the attention of the world people on Korea and powerfully encouraging the revolutionary peoples of the world to socialism, flying the banner of *Juche* and self-reliance.

In the name of the entire working class and the Chullima riders throughout the country, we extend whole-hearted gratitude and greatest honour to Comrade Kim Il Sung, the respected and beloved Leader, who has always led our people along the road of victory, made Korea shine in the world, brought us working class the pride of being the leading class of the country and reared us as the honourable Chullima riders.

The cause of the Korean revolution for which our anti-Japanese revolutionary fighters fought shedding blood, crossing the death-line, has not yet been accomplished, the letter said. Noting that the U.S. imperialists, the heinous aggressors and the traitorous Pak Jung Hi clique, their stooges, who are dead set against the unification of the fatherland, the ardent desire of our people, imposing immeasurable sufferings and misfortunes upon the compatriots in the South, are running wilder in new war provocation manoeuvres today and the revived Japanese militarists are staging a comeback to South Korea, the letter said:

Today a strained situation has been created in our country in which a war may break out at any moment.

Holding aloft the resolutions of the Conference of the Party, the 10-point Political Programme of the Government of the Republic put forth by the Leader and his instructions given at the recent Plenum of the Central Committee of the Party, we working class and Chullima riders will further strengthen the economic might and defence potential of the country and make better combat preparations by continuously bringing about the great revolutionary upsurge on all fronts of socialist construction, and thus liberate the South and surely accomplish the historic cause of the unification of the fatherland by smashing the U.S. imperialists at one stroke if the scoundrels dare pounce upon us, the letter emphasized.

It went on:

We will wage the Chullima Work Team Movement in a more all-round way and more energetically in all spheres of socialist construction and consolidate and develop the Chullima Work Teams more qualitatively so that they may display to the full their vitality as a school of communist education.

We working class and Chullima riders will, first of all, prepare ourselves more firmly politically and ideologically for effecting a great revolutionary upsurge and making better combat preparations, solidly building up collectives into red ranks.

Through the brilliant 40 odd year course of the Korean revolution along which the struggle has been waged under the wise leadership of Comrade Kim Il Sung, and through our life, we have been firmly convinced that we can win victory only when we advance along the road indicated by the Leader.

No force on earth is stronger and greater than the class, engaged in revolution, trusting the leader of its class and having such conviction.

We working class and Chullima riders knowing no other ideas than the revolutionary ideas of Comrade Kim Il Sung will become the life-guard, death-defying corps, of the Leader, which safeguards and defends the Leader with their life, without the slightest vacillation in any storm and adversity.

We will implement to the end the orders and instructions of the Leader through fire and water, thinking as the Leader thinks and acting as the Leader instructs at any time and in any place by making the revolutionary ideas of Comrade Kim Il Sung, the unitary ideology of our Party, our flesh and blood.

Through an assiduous study of the glorious revolutionary traditions of our Party, we will deeply grasp the history of the revolutionary struggle and his immortal exploits, the great revolutionary ideas and the judiciousness of the leadership, and ardent love for the fatherland and the people and the lofty virtures of the Leader who has led the Korean revolution to victory and will wholly accept as ours the ardent fidelity of the anti-Japanese guerrillas to the Leader.

By arming ourselves more firmly with the ideas of socialist patriotism, we will further heighten class enmity against the U.S. and Japanese imperialists, landlords, capitalist class and exploiter's system, ardently love the socialist system of our country, further consolidate and develop this system and defend the socialist fatherland to the end.

We will possess the strong militancy, organization and discipline of unconditionally accepting the orders and instructions of the Party and the Leader and fulfilling them at any cost by constantly tempering our Party spirit and working-class spirit through more faithful participation in the organizational life and collective life.

The letter emphasized:

We working class and Chullima riders will ensure the unity and ideological purity of our ranks by arming ourselves thoroughly with the

Report of Chairman of GFTUK Central Committee at 2nd National Meet of Frontrankers in Chullima Work Team Movement

It is our infinite glory and joy and great inspiration to the entire working class and Chullima riders to have this significant meeting again today in the presence of the respected and beloved Leader in the same place where the National Meeting of Frontrankers in the Chullima Work Team Movement was held in August 1960 under the guidance of Comrade Kim Il Sung, the reporter declared.

Declaring that if the U.S. imperialists, the enemy, venture any "retaliation" for the deserved punishment meted out by us to the band of pirates who infringed upon our sovereignty, it will mean the start of a war, the reporter continued:

In connection with the grave situation created in our country, the Central Committee of the Party and Comrade Kim Il Sung, the respected and beloved Leader, called upon the whole Party membership and the entire people to maintain utmost revolutionary vigilance and strain and keenly watch every move of the enemy, further increase the economic and military might of the country by effecting a great upsurge on all fronts of socialist construction and make better preparations in an all-round way to cope with any situation.

This meeting convened under such circumstances is of great significance in further deepening and developing the Chullima Work Team Movement to suit the requirements of the obtaining situation and the development of our revolution and raising higher the flames of the great revolutionary upsurge on all fronts of socialist construction, responding with a whole heart to the call of the Party and the Leader.

The meeting will make a great contribution to bringing earlier the unification of the fatherland and the nation-wide victory of our revolution by firmly arming the entire working class and working people with the unitary ideology of our Party, accelerating the process of the revolutionization and working-classization of the whole society and stepping up the revolution and construction at maximum speed.

Noting that it is more than 10 years since the great Chullima Movement came into being and 7 years since the National Meeting of Frontrankers in the Chullima Work Team Movement was held, the reporter said:

In this period, great changes have taken place in the revolution and construction of our country.

The Chullima Movement also has developed vigorously, displaying a great might in the raging torrent of the revolution and construction.

The Chullima Movement is a great communist revolutionary movement that began on the great initiative and under the wise leadership of Comrade Kim Il Sung, the outstanding Leader of our revolution, and is a nation-wide movement for accelerating socialist construction at maximum, rallied close around the Party and the Leader.

As Comrade Kim Il Sung taught us, **"The high tide of socialist construction and the Chullima Movement in our country are a lawful outcome of the great social and economic changes during the postwar period and of all the material and moral forces stored up by our Party and people in the course of their protracted, arduous struggle."**

Saying that a revolutionary upsurge does not occur any time and anywhere if only there are economic and material pre-conditions bringing about a great upsurge in socialist construction, the reporter stressed that there must be the wise leadership of the Leader that can guide the masses on to a great revolutionary upsurge.

The attendants of the 2nd National Meeting of Frontrankers in the Chullima Work Team Movement and a congratulatory group of the Korean Young Pioneers

He continued:

Comrade Kim Il Sung, the wise Leader of our people, set forth the *Juche* line of economic construction on giving priority to the growth of heavy industry while developing light industry and agriculture and the slogan "Dash forward at the speed of Chullima!" reflecting the subjective and objective revolutionary situation created in our country in the postwar period, especially the fundamental demand of our revolution for pushing on the revolution and construction at maximum speed and the unanimous revolutionary aspirations of our people to dash onward faster than others and energetically organized and mobilized the masses in its implementation, thus opening the new era of the great Chullima Movement that ushered in a great upswing in socialist construction.

As Comrade Kim Il Sung taught us, **"The Chullima Movement has become our Party's general line in socialist construction.**

"The essence of this line is to unite the entire working people more closely around our Party by educating and remoulding them in communist ideology and bring their revolutionary zeal and creative talent into full play, so that socialism can be built faster and better."

The Chullima Movement developed still more in the course of the struggle against the residue of outdated ideas such as passivism, conservatism and mysticism after the completion of the socialist transformation of production relations, especially in the course of strengthening the education of the masses in the Party policies, revolutionary traditions and communism and deepening the work with the people.

In this course emerged the Chullima Work Team Movement, a form in which the Chullima Movement was deepened and developed.

The Chullima Work Team Movement has attained greater depths and developed still more through the struggle for implementing the programmatic teachings given by Comrade Kim Il Sung, the respected and beloved Leader, at the National Meeting of Frontrankers in the Chullima Work Team Movement.

The main features of the development of the Chullima Work Team Movement after the National Meeting of Frontrankers in the Chullima Work Team Movement lie in the fact that the movement has been further deepened, taking the course of firmly arming the working people with the unitary ideology of our Party and revolutionizing and working-classizing the whole society.

They also lie in the fact that the movement is thoroughly arming the working people with the great ideas of *Juche* of Comrade Kim Il Sung, so that they can decisively reject Right and "Left" opportunism and embody the revolutionary principle of independence, self-sustenance and self-defence in all spheres of work

great revolutionary ideas of the Leader, and building up the revolutionary ranks more solidly so that all descriptions of counter-revolutionary ideas and outdated ideological survivals such as revisionism, "Left" opportunism, flunkeyism, dogmatism, bourgeois ideas, feudal Confucian ideas, factionalism, parochialism and nepotism which have nothing to do with the ideas of our working class may not infiltrate into us.

We solemnly pledge to Comrade Kim Il Sung, the respected and beloved Leader, to accomplish the people's economic plan for this year before the 20th anniversary of the founding of the Republic and scale the heights of the 7-Year Plan with flying colours by producing and economizing to the maximum and doing work more and dashing faster with the stamina of smiting the enemy, pushing aside self-conceit and marking time, indolence and relaxation, passivism and conservatism and counting every minute and every second.

Saying that they recognize no fixed "rated capacity" or "norm," the letter pointed out: The demand of the Party and the Leader, our innovation, our miracle and our tempo created to meet this demand—this is precisely our rated capacity and norm.

We will boldly sweep away revisionism, flunkeyism, conservatism and mysticism that as economy develops and its scope expands, it is impossible to raise the tempo of advance, and make continued innovation and continued advance, thereby demonstrating once again before the whole world the mettle of the heroic Korean working class possessing the revolutionary spirit of self-reliance and the revolutionary stamina of the Chullima riders.

In the letter they pledged themselves that each of them would do two persons', three persons' and ten persons' share and become the shock-brigade in the technical revolution by effecting collective technical innovation.

The letter pointed out that they would establish the Daian Work System, secure more material reserves and provide materials and equipment, needed for defence upbuilding, in time and fully.

The letter stressed:

As long as the rifles taken by the anti-Japanese guerrillas are held in the iron hands of us workers, the security of our fatherland will be firm and it is also out of question to crush the villainous Americans and unify the fatherland.

Noting that we can not forget even a moment the South Korean people who are subjected to a bitter life under the tyranny of the U.S. imperialist aggressors, the sworn enemy, and the traitorous Pak Jung Hi clique, their stooges, the letter went on:

We working class in the northern half of the Republic who always cherish a warm class feeling towards the working class who are most harshly oppressed and exploited in South Korea will assist in every way the South Korean revolution, and make full preparations so as to be mobilized in the decisive struggle for sweeping away the U.S. imperialist aggressors and the traitorous Pak Jung Hi clique, their stooges, and achieve the historic cause of the unification of the fatherland by pooling strength with the entire South Korean people.

In conclusion the letter said:

We, bearing deep in mind the glory of holding the meeting in the presence of the respected and beloved Leader, pledge ourselves firmly and firmly to implement to the end the programmatic instructions given by the Leader at this meeting to us frontrankers in the Chullima Work Team Movement.

No matter what steep cliff may stand before us, no matter what violent wind may rise and no matter what trial may come, we will surely put into practice the pledge of us working class and the Chullima riders made with the red hearts to the Leader.

We, wholeheartedly wish Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, peerless patriot, national hero, ever-victorious, iron-willed genius commander, great Marxist-Leninist of our times and one of the outstanding leaders of the international communist movement and working-class movement good health and a long life for the unification and independence of the fatherland and the ultimate victory of the Korean revolution, for the prosperity of our country and happiness of the generations to come and for the victory of socialism and communism, the great ideal of the working class. and life in a thoroughgoing way under the revolutionary banner of self-reliance.

Since the meeting, the Chullima Work Team Movement has rapidly expanded and grown not only in content but also in scope.

Thus, number of the Chullima Work Teams has grown 21 times, the Twice-Chullima Work Teams 28 times and the Chullima riders over 23 times the figures at that time of the National Meeting of Frontrankers in the Chullima Work Team Movement.

The great vitality of the Chullima Work Team Movement lies, first of all, in its successful solving the tasks of the ideological revolution for educating and remoulding man into man of communist type.

Comrade Kim Il Sung, the great Leader, taught us:

"The Chullima Work Team Movement is a fine communist school of the working masses created by our working class under the leadership of our Party. In the Chullima Work Teams, primary importance is attached to the communist education of the working people and a decisive link of collective innovation in production is sought in arousing the concious enthusiasm of the people by educating and remoulding them."

Along the line elucidated by Comrade Kim Il Sung, the Chullima Work Teams are organically combining the nature-remaking work with the man-remoulding work and successfully bringing into effect the communist principle of life under which all the people work with sincerity for the society and the collective while the society and collective direct utmost solicitude to each man with the motto: "One for all and all for one."

The reporter referred to the fact that our Chullima Work Teams put main stress on establishing the system of the unitary ideology of the Party among the people by making the study of the teachings of Comrade Kim Il Sung, Party policies and revolutionary traditions, an inseparable part of their daily life in revolutionizing and working-classizing them through their communist education and reformation, and the work team members are arming themselves with the revolutionary ideas of the Leader, defending the Party and the Leader with their lives any time and anywhere and carrying out the orders of the Leader to the end, going through fire and water, and in this course they are registering tremendous successes.

The reporter continued:

Highly praising these noble mental and moral virtues and labour exploits of our Chullima riders, Comrade Kim Il Sung, the respected and beloved Leader, vouchsafed to them the honourable title that **"The Chullima riders are heroes of our era and red fighters of the Party."**

Through the Chullima Work Team Movement, the line of our Party on educating and remoulding millions of working people in a communist way was accepted by the masses and it has been turned definitely into a work of the masses themselves, and the inexhaustible wisdom, enthusiasm and creative power of the masses are being brought into full play in our country.

Through the Chullima Work Team Movement, the tasks for conquering the ideological fortress of socialism and communism and, on this basis, conquering their material and technical fortress, are being triumphantly fulfilled in our country.

The reporter declared that the Chullima Work Team Movement is displaying great vitality in carrying through the revolutionary line set by Comrade Kim Il Sung at the historic Conference of the Party on stepping up economic construction and defence upbuilding in parallel, the revolutionary Marxist-Leninist line which guarantees the final victory of our revolution under the condition in which we are carrying on the revolution and construction, standing face to face with U.S. imperialism, and an original line which no one has ever thought of or ever practised.

He said:

Particularly, the on-the-spot guidance of Comrade Kim Il Sung, the respected and beloved Leader, to the mine where Comrade Kim Kyoo Won works and the Hamheung district last year, marked an occasion of a revolutionary turn bringing about a new, great upsurge in economic construction and defence upbuilding.

The unusual speed of socialist construction and the sustained upsurge of the revolutionary high tide in our country demonstrated the great superiority and invincible vitality of the Chullima Movement created by Comrade Kim Il Sung, the great Leader, and the heroic stamina and militant mettle of our people who are advancing vigorously toward the brilliant victory of socialism and communism, rallied firm around the Leader with one mind and one will.

This is also a great victory of the immortal ideas of *Juche* of Comrade Kim Il Sung that the master of the Korean revolution is the Korean people and the Korean revolution must be fulfilled under all circumstances on the responsibility of the Korean people and a great victory of the mass line of our Party which pushes on the revolution and construction to the maximum, relying on the masses at all times.

The great changes that have taken place in our country and the tremendous successes made in the development of the Chullima Movement are unthinkable apart from the wise leadership and kindred solicitude of Comrade Kim Il Sung, the respected and beloved Leader, who has reared our working class as the leading class of the country, trusting it as the main force of the revolution.

The reporter referred in detail to the fact that from the time when he took the road of revolutionary struggle in his early years to this date, Comrade Kim Il Sung reared and guided our working class so it can play the leading role to the fullest measure in the revolution and construction, deeply conscious of its historic mission.

The reporter also referred in detail to the fact that Comrade Kim Il Sung as trusted the working class as the basic motive power of our revolution through the whole course of revolution and construction, called on our working class first of all whenever difficult and complicated problems or new tasks were raised, inspired its revolutionary zeal and thus always led the revolution to victory, surmounting difficulties.

Looking back with deep emotion on the roads of victory which they have pulled through, valorously overcoming all trials and difficulties, single-heartedly sharing life and death, weal and woe with the Leader as his faithful soldiers in the arduous days, our heroic working class and Chullima riders are today filled with the revolutionary determination to defend the Leader with their lives and advance, advance, fight and advance along the one road of glorious and brilliant victory, indicated by the Leader, in the future, too, as they did in the past.

Stressing that it is unthinkable apart from the wise leadership and profound solicitude of Comrade Kim Il Sung, the great Leader of our people and father of our working class and Chullima riders, that today our working class is leading a happy life with no worry about food, clothing and housing and working with joy and hope, the reporter, on behalf of the entire working class and Chullima riders of our country, extended the warmest gratitude and highest honour to Comrade Kim Il Sung, the great Leader of the 40 million Korean people.

Pointing to the honourable duty and tasks confronting our heroic working class and entire Chullima riders today, the reporter said:

Comrade Kim Il Sung, the great Leader of our Party and working class, calls the entire people to a grandiose advance for consolidating the economic power and defence capacity of the country as firm as an iron-wall in order to counter the intensified aggressive machinations of U.S. imperialism and bring earlier actively the great revolutionary event of unification of the fatherland.

Our working class and Chullima riders should arm themselves more firmly with the unitary ideology of the Party in the first place in order to successfully carry out their revolutionary duty.

Comrade Kim Il Sung said:

"To arm ourselves with the unitary ideology of our Party and the policy of our Party means to carry on revolution continuously and fight till revolution is carried to completion. Only by firmly arming ourselves with the unitary ideology of our Party can we win victory in the revolutionary struggle and carry out revolution to the end, carrying it forward generation after generation."

To establish the system of the unitary ideology of the Party is to arm the whole Party with the ideas of the political leader who knows better than anyone else the law-governed nature of historical development and argent demand of the times, and the historic duty of the working class the correlation of the class forces and the circumstances of the revolutionary struggle and the means of carrying out revolution, stands for the interests of the popular masses most thoroughly and looks farther into the future than anyone else in the class, and achieve, on this basis, the complete and unconditional unity of ideology, will and action of all the Party members and carry out the revolutionary struggle and construction work under the unitary guidance of the Central Committee of the Party with the revolutionary ideas of the Leader, the organizational will of the Party, as a guiding compass.

The establishment of the system of the unitary ideology of the Party is the cornerstone for the upbuilding of a Marxist-Leninist party and the decisive condition for leading revolution and construction to victory.

The leader is the supreme brain of the class and the heart of the party who founds the party, the vanguard of the working class and the general staff of revolution, and puts forth the guiding ideas of the party and the strategy and tactics of revolution.

The leader is the centre of the unity and solidarity of the working class and the entire revolutionary masses, and this centre can not but be one.

To deny the role of the leader in the development of history and impair his authority is revisionism and a trend of reactionary opportunist ideology which try to fundamentally deny the quintessence of Marxism-Leninism practically confirmed in the international communist movement and working-class movement ,oppose the proletarian dictatorship and emasculate the leading role of the Party.

Only when the entire working people firmly arm themselves with the revolutionary ideas of the Leader and defend the unity and cohesion of the Party like the apple of the eye, rallied firm around the Leader, is it possible to unify the fatherland, achieve the nation-wide victory of the Korean revolution and build socialism-communism successfully in this land.

Comrade Kim Il Sung is the great Leader of our people who hewed a genuine Marxist-Leninist road for the first time in Korea, and has led the Korean revolution only to victory and glory and fought with all devotion for the victory of the cause of socialism and communism in Korea and for the victorious advance of the international communist movement and the national liberation struggle for the past 40 odd years.

The unitary ideology of our Party is the revolutionary ideas of Comrade Kim Il Sung, the founder of the Workers' Party of Korea and the great Leader of the 40 million Korean people.

The immortal revolutionary ideas of Comrade Kim Il Sung are ideas which have creatively applied Marxism-Leninism to the reality of our country and developed it, the sole guiding compass which leads the Korean revolution along the straight victorious path as the ideas of *Juche* run through with the principles of independence in politics, self-sustenance in economy and self-defence in national defence and great ideas which firmly guarantee the victory of

actively tapping and mobilizing inner reserves and waging an extensive struggle for each one doing the shares of two, three and ten persons, giving full play to the revolutionary spirit of self-reliance with high revolutionary consciousness of being the leading class shouldering the destiny of the Korean revolution.

Pointing to the necessity of waging energetically a mass technical innovation movement, observing voluntarily labour discipline, enhancing production culture, invigorating a struggle for economization and establishing thoroughly the Daian Work System, the congratulatory message continued:

We should further increase the defence capability of the country in face of the obtaining situation.

As instructed by Comrade Kim Il Sung, **" The work of defending the country is the work of the whole Party, the whole State and the entire people. Together with the People's Army, the entire people, all the organs and enterprises, and all the regions of the country must direct their efforts to the strengthening of the defence capability of the country."**

The Central Committee of the Workers' Party of Korea firmly believes that our heroic working class and the entire Chullima riders will bring earlier the great revolutionary event of the unification of the fatherland and the nation-wide victory of our revolution by thoroughly implementing the revolutionary line of the Party on stepping up economic construction and defence upbuilding in parallel, spurring on the grand Chullima march, rallied firmer around Comrade Kim Il Sung, the great Leader of the 40 million Korean people, the congratulatory message emphasized in conclusion.

DPRK Foreign Ministry Statement

Flays Japan Gov't Plot for "For. School Bill"

PYONGYANG, May 12 (KCNA)—The Ministry of Foreign Affairs of the Democratic People's Republic of Korea issued on May 11 a statement in connection with the machinations of the reactionary Sato Government of Japan to ram through the Japanese Diet the "Alien School Bill," a fascist evil law.

Lashing out at the sinister attempt of the reactionary Government of Japan to enact the "Alien School Law" at the current session of the Japanese Diet, the statement stresses:

This scheme of the Sato clique to "enact" the fascist "Alien School Law" is intended to totally stamp out the democratic, national education of the Korean citizens in Japan and it is an intrigue for forcing slave education of Japanese militarism upon their sons and daughters.

It is also a naked expression of the hostile policy against the Democratic People's Republic of Korea, another grave challenge to the 600,000 Korean citizens in Japan and the peoples of Korea and Japan and a gross violation of international law and international practice.

The Government of the Democratic People's Republic of Korea and the entire Korean people strongly denounce the criminal manoeuvres of the Japanese authorities to totally violate and obliterate the right of the Korean compatriots in Japan to democratic, national education.

As everyone knows, it is a sacred basic right of the overseas citizens of an independent state to give national education to their children in their mother tongue, no matter where they may reside.

The 600,000 Korean compatriots in Japan are legitimate overseas citizens of the Democratic People's Republic of Korea—the glorious fatherland led by Comrade Kim Il Sung, the respected and beloved, great Leader of the 40 million Korean people.

In light of the grave crimes committed against the Korean people in the past and international law and humanitarian principles, the Japanese authorities are under unavoidable legal responsibility and moral obligation to protect the Korean citizens in Japan and ensure all their rights, including their right to democratic, national education.

Recalling that the Sato clique of Japan, nevertheless, has resorted to systematic manoeuvres to violate and trample underfoot the democratic, national rights of the Korean citizens in Japan, trying to impose "ROK nationalty" upon them and bar the route of their repatriation to the DPRK and intensifying suppression of the democratic, national education of the sons and daughters of the Korean citizens in Japan, in collusion with the traitorous Pak Jung Hi puppet clique after the conclusion of the so-called "South Korea-Japan Treaty" under the manipulation of U.S. imperialism, the statement continues:

The afore-mentioned "law" which the Sato clique of Japan is trying to fabricate is a fascist evil law designed to nullify the recognition of the Korean University and, furthermore, interfere in the affairs of all the Korean schools by taking direct hold of them from their management to the appointment of teachers and the contents of education, wantonly take suppressive measures such as "forcible investigation, order of suspension, order of closure" and so forth, under arbitrary pretexts, undermine the national unity of the Korean citizens in Japan and enforce the "assimilation education" for reducing the Korean youth and children in Japan to their docile slaves.

It is no accidental that the reactionary Government of Japan is in a hurry to pass the "Alien School Law" at the Japanese Diet at a time when the U.S. imperialists are raising a frantic war racket to provoke a new war again in Korea.

This clearly shows that the Japanese imperialists are viciously scheming to further accelerate the fascistization of Japan, serve actively in the U.S. imperialists' policies of aggression and war against our country, tighten political and military tie-up with the traitorous Pak Jung Hi puppet clique and expand the road of reinvasion of South Korea by crudely violating the democratic, national rights of the Korean citizens in Japan.

With nothing can the reactionary Sato Government of Japan justify its criminal manoeuvres to suppress the national education of the Korean citizens in Japan.

The Korean and Japanese peoples will never tolerate the criminal manoeuvres of the Japanese militarists to trample underfoot the sacred national right of the Korean citizens in Japan for their foul political aim of invading South Korea again and fascistizing Japan.

Referring to the fact the Korean compatriots in Japan, Japanese people of broad segments and the peace-loving people of the world are waging resolute struggles for smashing the reactionary "Alien School Bill" and actively defending all the democratic, national rights of the Korean citizens in Japan, including the right to national education, the statement says:

The reactionary Government of Japan can never evade the obligation to protect especially the Korean citizens in Japan and ensure them unconditionally all democratic, national rights, including the right to national education.

The Government of the Democratic People's Republic of Korea and the entire Korean people strongly demand the reactionary Government of Japan give up at once the plot to rig up the "Alien School Law," a fascist evil law, and ensure unconditionally all the democratic, national rights of the Korean citizens in Japan including their right to national education, in accordance with international law and international practice.

Should the reactionary Government of Japan, defying the strong demand of the Korean and Japanese peoples and the progressive people of the whole world, doggedly rig up the "Alien School Law" and violate the right of the Korean citizens in Japan to democratic, national education, persisting in its hostile policy against our Republic, it would be held entirely responsible for the grave consequences arising from this.

The Government of the Democratic People's Republic of Korea will keep up the stubborn struggle against all the untenable acts of the Japanese militarists encroaching upon the national rights of the 600,000 Korean citizens in Japan and persecuting and looking down upon them.

building socialism and communism.

Today the true communists and revolutionary peoples of the world call Comrade Kim Il Sung, our respected and beloved Leader, a "most outstanding Marxist-Leninist" and call his ideas of *Juche* the great Marxist-Leninist revolutionary ideas of our times and his works Marxist-Leninist classics and textbooks, and express boundless respect for and trust in him.

There is no greater pride for our working class and our people than to have Comrade Kim Il Sung as the Leader and there are no greater happiness and honour for them than to become his revolutionary soldiers.

To defend Comrade Kim Il Sung, the great Leader of the Party and the people, is to defend our Party and our revolution and this is the decisive guarantee for all our victories.

Our working class and Chullima riders should firmly arm themselves with the unitary ideology of the Party knowing no other ideas than the revolutionary ideas of Comrade Kim Il Sung, the great Leader of our Party and people, and become faithful revolutionary soldiers who defend him with their lives in any trial and adversity, breathe and act in accordance with the ideology and will of the Leader at any time and in any place, thoroughly implement his orders and instructions and single-heartedly share life and death, weal and woe with the Leader.

The reporter emphasized: The working class and Chullima riders should make a deep and systematic study of the works of the Leader and his teachings given to the Chullima Movement, their respective fields and their factories to make them their flesh and blood and strictly observe the centralized discipline of thoroughly implementing the teachings of the Leader and the policy of the Party.

The Chullima riders should resolutely fight against revisionism, "Left" opportunism, flunkeyism, bourgeois ideas, the survivals of feudal Confucian ideas and unsound counter-revolutionary ideological elements of all hues such as factionalism, parochialism and nepotism, which are contradictory to the ideas of the Party, and thus all units and all posts of production and construction should become the stronghold of revolution where the system of the unitary ideology of the Party is firmly established and all the Chullima riders a shock-brigade safeguarding more resolutely and implementing more thoroughly than anyone else the line and policy of the Party.

Saying that we should also firmly arm ourselves with the brilliant revolutionary traditions of our Party for thoroughly establishing the system of the unitary ideology of the Party, the reporter quoted the following words of Comrade Kim Il Sung: **"To conduct the education in revolutionary traditions in a deep-going way plays a most important part in revolutionizing the people and establishing the system of the unitary ideology."** The brilliant revolutionary traditions of the anti-Japanese armed struggle should be carried forward and developed generation after generation, the reporter emphasized.

Laying stress on powerfully accelerating the ideological revolution, he pointed out: It is revisionism to make light of the ideological revolution and put up only material incentive with one-sided emphasis on economy, saying that if the material wealth grows, the ideological consciousness of the people will be remoulded of its own accord.

Underscoring that the Chullima Work Teams should further strengthen communist education, education in socialist patriotism in particular, among the working people, the reporter pointed out that the entire working class and Chullima riders should thoroughly hate imperialism, exploiters' system and exploiting classes and make firmer ideological preparations so that they can fight with devotion for sweeping away the U.S. imperialists, the sworn enemy of our people, and the Pak Jung Hi traitors, their stooges, and for bringing earlier the unification of the fatherland and the nation-wide victory of our revolution, joining hands with the South korean people.

Touching upon the question of firmly making political and ideological preparations, while making better material preparations in face of the obtaining situation, the reporter went on:

The entire working class and Chullima riders, holding high the resolutions of the Conference of the Party, the 10-point Political Programme of the Government of the Republic and the resolution of the recent Plenum of the Central Committee of the Party, should put further spur on the great upsurge of socialist construction by mobilizing all the strength, technique, wisdom and reserves on hand and wage more vigorously the socialist emulation and thus fulfil and overfulfil without fail this year's huge people's economic plan before the 20th anniversary of the founding of the Republic and successfully scale the heights of the 7-Year Plan.

Putting stress on thoroughly embodying the requirements of the Daian Work System, the basic key to thoroughly implementing the revolutionary line of the Party on stepping up economic construction and defence upbuilding in parallel and giving full play to the superiority of the socialist economic system, reporter said:

The Daian Work System created by Comrade Kim Il Sung is a Marxist-Leninist, revolutionary system of economic management and guidance most suitable to the nature of the socialist system and socialist construction in our country and a communist work system in which the principle of collectivism "One for all, all for one" is brilliantly embodied.

The reporter stressed in conclusion:

Today, under the wise leadership of Comrade Kim Il Sung, our revolution is advancing victoriously and the great revolutionary event of the unification of the fatherland is drawing nearer.

The working class and Chullima riders, rallied closer around and led by Comrade Kim Il Sung, will stubbornly fight on courageously going through storms and stress and raging waves with confidence in victory and in the high spirit of crushing the ememy, to accomplish to the end the sacred revolutionary cause started by the Korean Communists, carry the South Korean revolution to completion by assisting the South Korean people, accomplish the historic cause of the unification of the fatherland and bring earlier the nation-wide victory of our revolution.
